

MeoForce DF 4x30

Is the extension to the compact riflescope series, MeoForce DF 3x20 and MeoForce DF 5x40. Designed to be used mainly with assault rifles (AR) for its durability and reliability in extreme conditions. The red illuminated reticle allows using the system in various light condition combined with red dot on the top for short distances (CQB) as well as for effective range of weapon system and with additional clip-on NV device during night time operations.
